

Proposal Deadline: 5th November 2025

Proposals must be suggested by a club member, seconded by a club member and some thought must go into the proposal. Please don't expect the AGM to be ready to vote on a suggestion that has not been thought through, with no research and no real basis for the change to take place or gain support.

We will need the name of the proposer, the name of the seconder, the proposal, any research or testing that supports the proposal which should include pricing, supply issues etc. and the reason for the suggestion.
